The average daily consumption of eggs in Los Angeles is from 700 to 800 cases, a case containing 30 dozen eggs. The average daily consumption of butter is 25,000 pounds.

Potatoes, which are consumed by Angelenos at an average daily rate of 200,000 pounds, are cheap at present, thanks to the appearance of fresh vegetables. Where \$3.50 a sack was the wholesale price two months ago, today the best potatoes can be

TODAY'S WEATHER FORECAST

The weather forecast for today is uncertain and nothing can be done about it.

A Hotel That Would Pay

An up-to-date, not too expensive winter resort hotel in Las Vegas will prove a bonanza we think without doubt.

We have the climate, and there is nothing of the kind here yet.

What is wanted is the family house, not the formal high-priced, "stiff in the neck hotel" now aiming to cater to such trade, but one with
